

Ethan Patel

ethan.patel@example.com | Languages: English, Hindi | Track: Robotics | Experience: 6 years

PROFESSIONAL SUMMARY

A robotics engineer with a strong background in designing and programming autonomous systems. Experienced in integrating hardware and software for robotics applications.

EDUCATION

MEng in Robotics, Carnegie Mellon University

SKILLS

ROS | C++ | Python | SLAM | Path Planning | Embedded Systems | Control Systems | Machine Learning | Sensor Fusion | LIDAR | Computer Vision | Matlab | Team Leadership | Analytical Thinking | Mechanical Design | Prototyping | 3D Printing | AI Applications

EXPERIENCE

Led the development of autonomous navigation algorithms for mobile robots, improving obstacle avoidance capabilities. Integrated LIDAR, cameras, and IMU sensors for real-time mapping and localization. Designed and implemented control systems for robotic arms used in manufacturing. Collaborated with cross-disciplinary teams to prototype and test robotic platforms. Experienced with ROS and other robotics middleware.
