

Carlos Mendes

carlos.mendes@example.com | Languages: English, Portuguese | Track: Robotics | Experience: 6 years

PROFESSIONAL SUMMARY

Robotics engineer with a strong background in mechanical design and control systems. Experienced in developing robotic solutions for industrial automation.

EDUCATION

M.S. in Robotics, Carnegie Mellon University

SKILLS

Robotics | ROS (Robot Operating System) | Python | C++ | Control Systems | Kinematics | Mechatronics | Electrical Engineering | CAD Design | SolidWorks | MATLAB | 3D Printing | Problem Solving | Team Leadership | IoT Integration

EXPERIENCE

Carlos Mendes has a robust background in robotics engineering, including designing automated solutions for manufacturing. He excelled in developing robotic arms with precise kinematics and control systems. At his previous job, he worked on integrating IoT sensors into robotic systems, significantly enhancing performance monitoring. He is proficient in ROS, SolidWorks, and MATLAB.
