

Amara Singh

amara.singh@example.com | Languages: English, Hindi | Track: Simulation | Experience: 9 years

PROFESSIONAL SUMMARY

Simulation specialist with expertise in modeling and analyzing complex systems. Skilled in developing simulations for aerospace and automotive industries.

EDUCATION

Ph.D. in Mechanical Engineering, Massachusetts Institute of Technology

SKILLS

Simulation Modeling | MATLAB | Simulink | Python | C++ | Finite Element Analysis (FEA) | Data Visualization | System Dynamics | Physics-based Modeling | Optimization Algorithms | Critical Thinking | Communication | Agile Methodologies | Time Management | Problem Solving | Cloud Platforms

EXPERIENCE

Amara Singh has 9 years of experience in simulation engineering, specializing in modeling complex mechanical systems. She has developed high-fidelity simulations for automotive crash testing and aerospace flight dynamics. Her expertise lies in using MATLAB, Simulink, and Python to create accurate predictive models.
