EXPERIENCE

Emma has four years of professional experience in frontend development, creating visually appealing and user-centric web applications. She specializes in React and Vue.js frameworks, ensuring high-quality code and seamless integration with backend systems. With a background in Graphic Design from RISD, Emma excels in crafting intuitive interfaces that adhere to accessibility standards and responsive design principles. Her portfolio includes projects for e-commerce platforms and interactive dashboards, showcasing her ability to blend technical expertise with creativity. Emma is proficient in Figma and Adobe XD for prototyping and design collaboration.
