

Sophia Muller

sophia.muller@example.com | Languages: German, English | Track: Robotics | Experience: 5 years

PROFESSIONAL SUMMARY

A robotics engineer specializing in autonomous systems and sensor integration. Passionate about designing innovative robotics solutions.

EDUCATION

Master's in Robotics Engineering, Technical University of Munich

SKILLS

ROS | Python | C++ | SLAM | Path Planning | Machine Learning | Computer Vision | LIDAR | Sensor Fusion | MATLAB | Gazebo | Robot Kinematics | Control Systems | Linux | Teamwork | Project Management | Version Control | Data Analysis | Prototyping | Agile Development

EXPERIENCE

Designed and implemented SLAM algorithms to improve the navigation of autonomous delivery robots. Integrated and calibrated LIDAR and camera sensors for real-time obstacle detection and avoidance. Developed machine learning models for robot perception using TensorFlow and OpenCV. Led a cross-functional team in prototyping an autonomous robot for indoor navigation. Tools used: ROS, Python, C++, Gazebo, MATLAB.
