

Rima Nasr

rima.nasr@example.com | Languages: Arabic, English, French | Track: AI | Experience: 8 years

PROFESSIONAL SUMMARY

AI specialist with a focus on natural language processing and computer vision. Enthusiastic about pushing the boundaries of machine learning.

EDUCATION

Master's in Artificial Intelligence, Saint Joseph University (USJ)

SKILLS

Python | TensorFlow | PyTorch | NLP | Computer Vision | Deep Learning | Transformers | OpenCV | Scikit-learn | Data Preprocessing | Big Data | SQL | NoSQL | Data Visualization | Docker | Kubernetes | Git | Machine Translation | Speech Recognition | Reinforcement Learning | Data Analysis

EXPERIENCE

Developed NLP models for sentiment analysis and machine translation, achieving 90% accuracy. Built computer vision pipelines for object detection in video streams using TensorFlow and OpenCV. Trained deep learning models with PyTorch for speech recognition applications. Optimized big data workflows for processing large datasets effectively. Tools used: Python, TensorFlow, PyTorch, SQL, Docker.
