

Hassan Karim

hassan.karim@example.com | Languages: Arabic, English | Track: AI | Experience: 7 years

PROFESSIONAL SUMMARY

AI engineer with a focus on predictive analytics and deep learning. Experienced in leveraging data to drive business decisions.

EDUCATION

Master's in Data Science, Notre Dame University (NDU)

SKILLS

Python | TensorFlow | PyTorch | Machine Learning | Deep Learning | Predictive Modeling | Big Data | SQL | Data Analysis | NLP | Computer Vision | Data Preprocessing | Tableau | Power BI | Keras | Data Visualization | Cloud Computing | Git | Statistical Analysis | Model Deployment | Time Series Analysis

EXPERIENCE

Built predictive models for customer behavior analysis, increasing retention rates by 15%. Developed deep learning algorithms for image and text classification using TensorFlow and PyTorch. Created dashboards in Tableau to visualize key performance metrics for stakeholders. Deployed machine learning models on cloud platforms for scalability. Tools used: Python, TensorFlow, PyTorch, SQL, Tableau.
