

Maya Farhat

maya.farhat@example.com | Languages: English, Arabic | Track: Simulation | Experience: 5 years

PROFESSIONAL SUMMARY

A simulation engineer with expertise in creating virtual environments for testing and validating autonomous systems. Maya is skilled in 3D modeling and simulation tools.

EDUCATION

BS in Computer Engineering, NDU

SKILLS

Unity | Unreal Engine | C | Python | MATLAB | 3D Modeling | Physics Simulation | Game Development | ROS | Linux | Problem-solving | Team Collaboration | Critical Thinking | Creativity | Attention to Detail

EXPERIENCE

Created detailed 3D simulation environments using Unity and Unreal Engine for testing autonomous vehicles. Implemented physics-based models to simulate real-world scenarios, improving system robustness. Integrated ROS for real-time control of robots in simulated environments. Proficient in Unity, C, and Python.
