

Layla El Khoury

layla.khoury@example.com | Languages: English, Arabic, French | Track: Backend | Experience: 5 years

PROFESSIONAL SUMMARY

Layla is a dedicated software engineer specializing in backend development. She has a strong foundation in system design and cloud technologies, with experience in scalable application development.

EDUCATION

Bachelor's in Computer Science, LAU

SKILLS

Java | Spring Boot | REST APIs | MySQL | Docker | Kubernetes | AWS | Microservices | Git | Agile Methodologies | Problem Solving | Team Collaboration | CI/CD | Unit Testing | Postman | System Design | Debugging | Python | Redis | MongoDB

EXPERIENCE

Developed and deployed a microservices-based e-commerce platform using Java, Spring Boot, and Docker. Spearheaded database optimization efforts, increasing system performance by 30%. Integrated AWS services such as S3 and RDS for scalable storage solutions. Collaborated with cross-functional teams to implement CI/CD pipelines, improving deployment efficiency. Mentored junior developers in code quality and best practices.
