

Sara Osman

sara.osman@example.com | Languages: Arabic, English | Track: AI | Experience: 4 years

PROFESSIONAL SUMMARY

Sara is an AI specialist with a deep interest in natural language processing and computer vision. She has developed innovative solutions for complex machine learning problems.

EDUCATION

Bachelor's in Computer Engineering, BAU

SKILLS

Python | TensorFlow | PyTorch | Scikit-learn | NLP | Computer Vision | Deep Learning | Data Engineering | Pandas | NumPy | Data Visualization | SQL | Algorithm Design | Git | Agile Development | Problem Solving | Team Collaboration | Model Optimization | Docker | Linux

EXPERIENCE

Developed a sentiment analysis model using NLP techniques, achieving 92% accuracy on benchmark datasets. Implemented image classification algorithms with TensorFlow, improving detection rates by 30%. Designed and maintained data pipelines for training machine learning models. Conducted performance tuning and optimization for deep learning models. Presented findings to stakeholders to support data-driven decision-making.
