

Junior Curriculum Developer

Location: Remote | Type: Part-time | Level: Junior | Salary: 30,000 - 40,000 EUR/year

About the Role

As a Junior Curriculum Developer at inmind.ai, you will create high-quality educational content for our tech academy. This role involves working closely with subject matter experts to design courses that empower learners to master AI technologies.

Requirements

- Strong background in computer science or AI
- Excellent written communication skills
- Ability to design engaging learning materials

Nice to Have

- Experience in e-learning platforms
- Knowledge of instructional design principles
- Familiarity with AI tools and frameworks
