

Simulation Developer

Location: Munich, Germany | Type: Full-time | Level: Mid-level | Salary: 60,000 - 80,000 EUR/year | Track: Simulation

About the Role

Join idealworks GmbH as a Simulation Developer and create realistic simulation environments for our robotics solutions. You will collaborate with a team of engineers to test and optimize robotic systems in simulated scenarios.

Requirements

- Proficiency in Python or C++
- Experience with simulation software
- Knowledge of robotics systems

Nice to Have

- Familiarity with Unity or Unreal Engine
- Experience with ROS
- Understanding of logistics processes
