

AI Operations Coordinator

Location: Munich, Germany | Type: Full-time | Level: Manager | Salary: 80,000 - 100,000 EUR/year

About the Role

The BMW Group is seeking an experienced AI Operations Coordinator to lead and optimize AI-related projects and processes within our organization. In this role, you will manage cross-functional teams, coordinate AI solution deployments, and ensure the successful integration of AI technologies into our automotive innovations.

You will also monitor project KPIs, collaborate with stakeholders, and keep the team aligned with company goals. This is a strategic role that requires a blend of technical expertise and leadership capabilities. Join us to drive the future of AI in the automotive sector.

Requirements

- 5+ years of experience managing AI or data-driven projects
- Strong understanding of AI/ML workflows and tools
- Proven leadership and team management skills
- Excellent communication and organizational abilities

Nice to Have

- Experience in automotive AI applications
- Knowledge of cloud platforms (AWS, Azure)
- Background in data engineering
