

Robotics Testing Intern

Location: Munich, Germany | Type: Internship | Level: Internship | Salary: Competitive | Track: Robotics

About the Role

Idealworks GmbH is seeking a motivated Robotics Testing Intern to support the development and validation of our cutting-edge robotic systems. As an intern, you will assist in testing and refining robotics solutions, ensuring their performance and reliability in real-world applications.

You'll work closely with our engineering team on tasks such as debugging hardware integrations, optimizing software functionality, and documenting test results. This is a hands-on opportunity to gain valuable experience in the field of robotics while contributing to groundbreaking innovations.

Requirements

- Currently enrolled in a relevant engineering or robotics program
- Basic knowledge of robot operating systems (e.g., ROS)
- Ability to test and debug hardware and software systems

Nice to Have

- Experience with sensor integration
- Familiarity with Python or C++
- Understanding of autonomous systems
