

Logistics for Frontend Internships

Track: Frontend | Document Type: Logistics

Frontend internships at BMW Group are based in Munich, offering interns access to a vibrant city and a dynamic corporate environment. Interns are expected to work onsite, collaborating closely with design and development teams. Visa assistance is provided for international candidates, ensuring smooth onboarding. Housing resources are available to help interns find suitable accommodation. The internship duration ranges from 3 to 6 months, with flexible starting periods. Interns receive competitive stipends to cover living expenses. The program includes training sessions, networking events, and opportunities to present work to BMW Group leadership. Munich's infrastructure supports professional and personal growth.
